

Chrome Soft X LS

Introducing Precision Technology

Chrome Soft is better for everyone, from amateurs to major winners. Now with our proprietary new Precision Technology, the Chrome Soft X LS Golf Ball is faster off the driver with a new cover for more greenside control.

Precision Technology is the enhancement of every component, process, and measure, which allows us to make our highest quality, best performing, most consistent ball. We've leveraged over \$50M of additional investment to create proprietary precision design techniques and manufacturing specifications that deliver our tightest dispersion, fastest speeds and unparalleled distance and control from every ball.

Features & Benefits

Precision Technology

New Precision Technology delivers our tightest dispersion, consistently fast ball speeds and total performance. We've enhanced every component and design feature to create the highest quality golf balls.

Construction Optimization

New Hyper Elastic SoftFast Core for increased driver speed and increased greenside spin while maintaining soft feel.

New Tour Aero

Penetrating ball flight and lower drag with new Tour Aero.

Available in White, Yellow, and Triple Track

What makes Chrome Soft X LS Unique and Who's It For?

Chrome Soft X LS 22 is designed for max distance in a fine-tuned lower spin profile. It's especially suited for better players who want to "bomb it" off the tee, with a tremendous combination of long distance and a straight ball flight. Key performance characteristics include very fast ball speed off the tee, penetrating long iron shots, straight ball flight, and excellent greenside control.
